

# Top Deck Premium GRP System

## What does it do?

**Top Deck Premium GRP System** (Glass Reinforced Polyester) fibreglass roofing system provides complete waterproof protection for flat roofs.

**Top Deck Premium GRP System** is formed from single-ply GRP fibreglass laminate over a good quality OSB3 deck. The roof is then finished with pre-formed GRP edge trims and a pre-pigmented topcoat (**Top Deck Finish Coat**). It is far superior to a felt roof as it has a vastly increased lifespan, is aesthetically pleasing and is functional i.e. it can be walked on.

## Where can it be used?

For domestic and commercial flat roofs **Top Deck Premium GRP System** is the ultimate choice in style and performance. It is extremely hard wearing, easy to maintain and is ideal for both new and old refurbishment projects.

**Top Deck Premium GRP System** can be used on almost any type of domestic flat roof such as extensions, garage roofs, porches, bay windows, dormer roofs etc.

It is also ideal for use on large commercial and industrial properties.

## TOP DECK PREMIUM GRP SYSTEM

## System benefits

- Cold liquid applied – no hot works on roof
- Can be applied over most flat roof types
- Single and double layer systems available
- No seams; no joints; no welds
- Corrosive-proof properties
- High strength
- High performance, waterproof protection
- Longlife, almost maintenance free finish
- Hard wearing and robust
- Withstands high temperatures and extremes of cold
- Fast and easy application
- Ideal for the trade and DIY enthusiasts

## Product information

**Product reference** **Top Deck Premium GRP System**

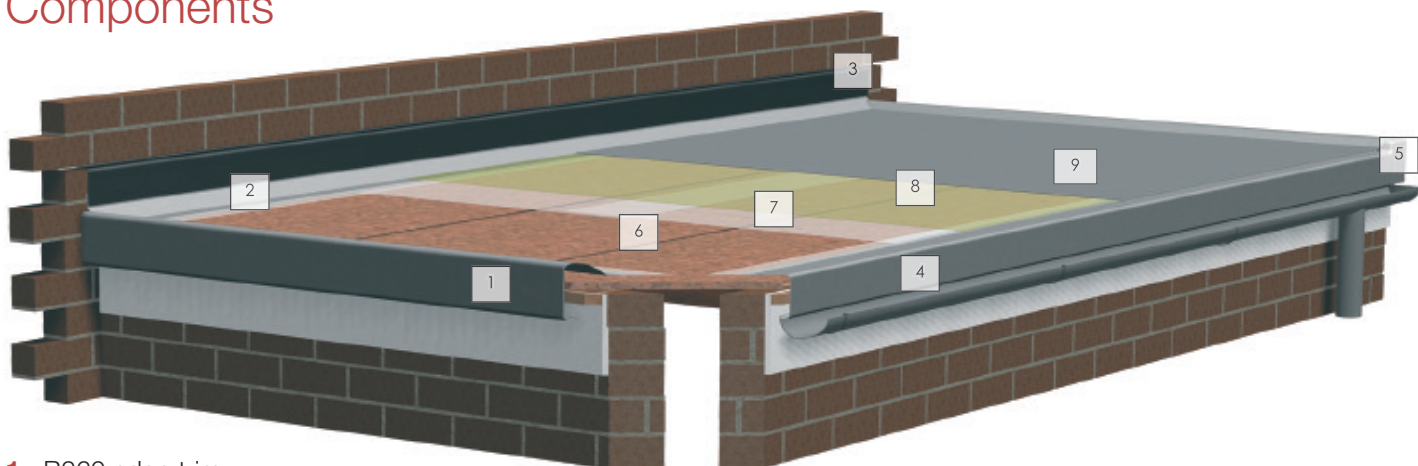

**Colour** Light grey

**Pack size** 10kg and 20kg containers or standard size single layer or double layer roofing kits

**Method of application** Via polyester rollers

**Life expectancy** 20 plus years

# Components

- 1 B260 edge trim
- 2 D260 edge trim
- 3 C100 edge trim
- 4 A200 edge trim
- 5 C1 universal external corner
- 6 OSB3 18mm decking
- 7 450g/m<sup>2</sup> Chopped Strand Mat
- 8 GRP laminate (Roofing Resin reinforced by CSM)
- 9 Topcoat

## Build up of system

- CSM Chopped Strand Matt
- Top Deck Resin
- Catalyst
- Top Deck Finish Coat
- Trims
- Full instructions and “working-day” help-line

## How to specify

The amount required or the size of the kit needed will depend on the area of the roof to be covered. Please consult a member of the technical department, to determine your exact requirement.
